

STOP HAND INJURIES

***50% of major injuries at CEMEX UK
in 2021 so far have been to hands.***

***How can I help those
on my site stay safe?***

***We recommend assessing
the risk of hand injuries
and making improvements
using the dedicated
form, found on the
UK Health & Safety
SharePoint site.***

***This could help prevent
you or your colleagues
getting injured.***

Protect your hands and stay safe

STOP THINK ACT
